• Git • Android Studio • VS Code
• Firebase Auth

PERSONAL DETAILS

DOB: Aug 19, 2003
Nationality: Indian
Languages: English, Telugu

PROJECTS

REALTIME CHAT APPLICATION | REACT.JS, SUPABASE, TAILWIND CSS

Recent Project

Built full-stack realtime chat application with modern web technologies:

- Developed responsive frontend using **React.js** and **Tailwind CSS**
- Integrated **Supabase** backend with **PostgreSQL** database
- Implemented **Google OAuth** and email/password authentication with protected routes
- Built realtime messaging using **Supabase Channels** and PostgreSQL triggers
- Designed message timestamp system with conversation history management

PERSONAL VAULT | FLUTTER, FIREBASE, BLOC

June 2024 – August 2024

Developed secure document management mobile application:

- Created file management system for documents, audio, video, and encrypted folders
- Implemented **Google Authentication** for secure user access
- Utilized **Firebase Cloud Firestore** and **Firebase Storage** for data management
- Applied **Bloc pattern** for state management and clean architecture

TASK SCHEDULER APPLICATION | FLUTTER, FIREBASE, BLOC

March 2024 – April 2024

Built comprehensive task and schedule management mobile app:

- Developed task reminder system with categorized scheduling
- Integrated **Firebase Authentication** and **Cloud Firestore** for data persistence
- Used **Bloc state management** for efficient app state handling
- Created intuitive timetable interface with notification system

EXPENSE TRACKER | FLUTTER, FIREBASE, PROVIDER

December 2023 – January 2024

Developed personal finance management mobile application:

- Built expense tracking system with category-based spending analysis
- Implemented interactive data visualization using charts and graphs
- Integrated **Firebase Cloud Firestore** for cloud-based data storage
- Applied **Provider pattern** for state management and reactive UI updates
